Hello All,

It was a pleasure meeting you at U of T Clubs Fair! To recap, Engineers Without Borders (EWB UofT) is a not-for-profit organization striving to address social injustices where there are difficult constraints, diverse stakeholders, and no clear solutions. We do this by offering a year long curriculum to our members to give you fundamental knowledge of global development. We then support you in applying this knowledge through ownership of socially impactful projects in Canada or overseas. EWB operates at U of T to grow leaders that will have a positive impact on failing social systems across the world. Find out more about how exactly we do this by coming out to our events this month:

Annual General Meeting:

- Join us from 6-8PM on Tuesday, September 13th @ SF 3202 OR Thursday, September 15th @ SS 1083
- This will be your opportunity to learn more about us as an organization, our portfolios, our Junior Fellowship program, and our learning curriculum

VEEP/EWB Keynote:

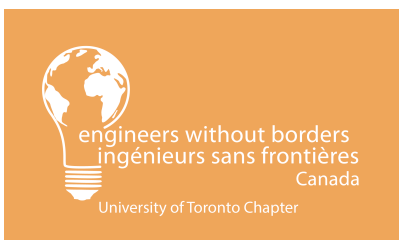

- 7-9PM on Wednesday, September 14th @ BA 1230 (Bahen Centre for Information Technology)
- EWB and VEEP are collaborating with keynote speaker Terri Chu to talk to you about finding your place on the global development playing field. Terri Chu's talk will focus on the importance of investment in our community, and her experiences with voluntourism in Ghana. This is not one to miss!

EWBootcamp:

- 10:30AM-4:30PM on Saturday, September 17th @ BA 2185 (Bahen Centre for Information Technology)
- This event consists of interactive workshops, engaging activities, and challenging discussions to give you a taste of our learning curriculum and introduce you to the EWB problem-solving approach

We look forward to seeing all your beautiful faces again and welcoming our newest batch of EWBoyz and EWBabiez!

Cheers!

Raghav Goswami & Haroon Dawood
